

THE IMPORTANCE OF CAPTURE AND TRIAL

JERUSALEM, (JTA): The importance of Eichmann's capture and future trial does not lie in the exceptional resources and ability shown by the Israel secret service but by having the privilege of revealing the entire holocaust in an Israel court.

Mr. Ben-Gurion expressed this opinion last Friday in a letter to "Davar."

The facts of the holocaust should be made known to Israel youth which has received only an echo of the atrocious crimes and world public opinion, too, should learn the truth.

The Premier said "I do not doubt that there are scores and hundreds of Nazis who played their part in the slaughter of Jews in neighbouring countries where they harbour similar designs against Israel and its people. World public opinion should be reminded whose disciples are these men who plot Israel's destruction."

Meanwhile it has been learned that the preparations for Eichmann's trial may last three months as the assembling, selecting and evaluating of documents and testimonies seems to be a longer process than was initially expected.
