

TRIAL WITNESSES TELL OF GRISLY NAZI CRIMES

ERUSALEM.—A series of witnesses at the Eichmann trial this week recounted grisly details of Nazi murders of Jews and gave details of the slaughter of human beings, many of which Eichmann himself had allegedly witnessed. One man in the courtroom, a scene of which is here pictured, was so overcome when he heard description of the death of his own family, that he shouted abuse at Eichmann, and was removed from the court.

... BUT THEY LIKE EICHMANN

Reports of “anti”-reactions to the Eichmann trial came this week from three varied sources—

In Beirut, capital of Lebanon, an alleged “Eichmann Conference” was held by German and other foreign Nazis to “co-ordinate Nazi activities with regard to the Eichmann trial and effects on world opinion

effects on world opinion.

According to the East Berlin TV network, the conference was attended by Otto Skorzeny, former SS officer known as Mussolini's liberator; former Nazi Maj.-General Ernst Remer; Hans Redel, former German air force ace; Leon Degrelle, the Belgian fascist leader; and Sir Oswald Mosely.

In Emmerich, Germany, swastikas and slogans—"Freedom for Eichmann" and "Heil Eichmann"—were daubed on walls of local buildings.

In Washington, DC, George Lincoln Rockwell, self-styled American "fuehrer", and 18 of his "troopers" picketed the Israel embassy, protesting the trial.
